

HOLDING EARTH in the LIGHT

A Quaker Retreat to Nurture Our Earthcare Witness

September 29 – October 1, 2006
Sierra Friends Center, Nevada City, CA

*Does your Meeting have a clear Earthcare leading ?
a few, quiet Earthcare voices ?
or a witness waiting to be heard ?*

Join us for a gathering of Friends to bring the light of love and clarity of conviction to our actions on behalf of Earth.

- Share stories from your Meeting : learn what other Meetings are doing
- Hear Quaker writer, Keith Helmuth, discuss how to re-vision Friends Testimonies to reflect concern for Earth
- Consider how to be more effective in turning concerns for Earth into active witness
- Worship together to explore and deepen our leadings
- Learn about sustainability projects at Sierra Friends Center
- Walk lightly and reverently in the early autumnal beauty of the Sierra Foothills

The registration form is online at
